

RMX is a growing Manufacturer and Exporter of reliable support equipments for Cement and Concrete Industry

Design, Manufacture of Solid Handling System includes Storage, Weighing, Mixing & conveying. We known for Welded / Bolted / Horizontal Silos, Aggregate Feeding Belt Conveyor, Bulker Unloading System, Screw Conveyor, Silo Accessories and Silo Weighing System.

### Turn Key Projects

### How RMX gives you the competitive edge

#### Site Audit

By making a detailed study of the site topography and mapping these observations with your needs, we suggest you the optimal design that results in consistently cost-efficient plant operation.

#### Best turnaround time

Leveraging our rich domain expertise and applying the latest technology in design and engineering, we ensure the best turnaround time.

#### Lesser labour dependency

Higher level of automation leads to lesser labour dependency, resulting in lower operating costs.

#### Eco friendly systems

With our focus on 'responsible engineering', we design and manufacture equipment that will have minimal environmental impact.

#### Health-centric design

The health and wellness of your operating staff is paramount to you; which is why we design systems that result in better, safer working conditions.

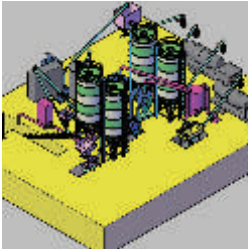

### Product Range at a glance...

- TURNKEY AND PROJECT BASE SOLUTIONS
- SUPPORT EQUIPMENTS FOR AAC / IMPORTED PRECAST & RMC PLANTS
- SILOS FOR CONCRETE BATCHING PLANTS
- AGGREGATE FEEDING BELT CONVEYORS
- SILO FEEDING SYSTEMS
- AUTOMATED CONCRETE DISTRIBUTION AND CONVEYING SYSTEMS
- SCREW CONVEYORS AND SILO ACCESSORIES
- AUTOMATED BRICK AND BLOCK PLANTS
- STRAIN GAGE TYPE SILO WEIGH SYSTEMS
